

## Board on UFO VPN with Unlimited Flow & Secure Internet

### About this team

Dreamfii LIMITED, founded in 2017. It's a HK (Hong Kong) based company, we developed several clean and system improvement application on android and now are developing a free and fast VPN named UFO which is available on mobile device, Windows, Mac. We released a professional paid version in December, with 580 servers worldwide to provide users with unlimited traffic, and the price is no more than \$8/month.

We have over 100 employees in HK, and over 200 employees in Chengdu. We are good at doing jobs like developing tools on all OS systems to help people. Such as this VPN, it will be available not only for mobile device, Windows, Mac but also for many other popular browsers(Chrome, Opera, Tor).

### About this App:

UFO VPN, a free, fast and stable VPN proxy for mobile and PC devices. It aims to protect our privacy and security by hiding the IP addresses. UFO VPN can be used on 5 devices at the same time, which including Windows x86-64, Mac OS, iOS and Android.

UFO VPN offers three types of the accounts:

1. Free membership: Free
2. Advanced membership: Free
3. Premium membership:

One month plan - \$7.99

Half year plan - \$29.99

One year plan - \$35.99

You can read our early blogs to learn the details of differences between our accounts: <https://blog.ufovpn.io/5-differences-between-free-vpn-and-paid-vpn/>

Our official website: [ufovpn.io](https://ufovpn.io)

The home page of our official website will show you the countries where UFO support to connect.

UFO VPN aims to be the best VPN and safest tools you can buy. In the future, UFO VPN will provide more servers for some specific online services like Netflix, Hulu, Sport matches and Mobile games.

### **UFO VPN Helps:**

- Protect you in open network from prying eyes
- Stay anonymous online
- Set your virtual location anywhere in the world
- Unblock website in restricted network environment (School, Workplace)

In general, UFO VPN provides private and secure access to a free and open Internet, you can access all your favorite content, including social networks, audio and video streaming news, sports and gaming.

Furthermore, lots of companies use geo-pricing strategies to adjust the price of the item according to users' location. From clothing to cosmetic and electronic products, the same item at different IP addresses may have different prices. Use UFO VPN to change your IP address and save money shopping online. That is definitely legal, of course.

### **What's the NEWS about UFO VPN in 2019:**

UFO VPN has released its official paid version 2.0 last month (December of 2018), and now we've got 500K+ users in a month. Totally, we've got 1 million users. And we will release a new version this month which improved our subscription order from renewing to non-renewing.

We currently have 580 servers around the globe and are increasing 200 servers every month. They are available in 26 cities. If you are a free user, you can freely choose from the 26 cities in 16 countries. The speed is limited under 20 Mbps for free users as there are millions of free users in UFO VPN now.

But for premium or advanced users, the speed will be faster. As I tested just now, the premium users can get a speed at 80 Mbps.

## Why to Choose:

- VPN locations across America, Asia Pacific, Europe, and the Middle East
- UFO VPN gives you simple and fast access to your favorite content
- UFO VPN helps you hide your IP and browse the webpage anonymously
- Smart recommend you to the fastest VPN Servers
- Just need one tap to switch the countries and locations
- It also can help you speed up the web browsing
- Friendly user support
- Free advanced trial, you don't have to pay to use UFO VPN
- Speed test feature, you can check the fastest VPN servers before connection.

In general, UFO VPN is an easy-to-use and high-speed VPN available for all major devices.

## Privacy & Security

UFO VPN secure your connection by encrypting your data. No one can access your internet traffic including government, hackers, and ISPs.

We consider that every user's privacy is important. we've provide privacy policy to tell people what information we will collect. Actually, we only collect anonymous usage data like device OS version, crash report, log data and the email address they submit to us. All of them are strictly for the user support purpose. And we do not rent or sell any personal information with any third party. People will agree our privacy policy and terms of service when they begin to use us.

We will only provide our service to users in legal regions. We closed the website visit and application visit to all the illegal regions such as China.

We will ask users to allow us to add VPN configuration after they launch our app in iOS. Tell them why we need this, and how to agree it. And furthermore, we support DNS leak protection and access via UDP/TCP, we will provide kill switch in the version of next month (Feb of 2019).

All of our servers are self-owned server, we can get full access and help when anything unexpected has happened to the servers. All of them are provided by AWS.
